

American Brain Tumor Association (ABTA) Data Management and Sharing Plan Template

INSTRUCTIONS:

A Data Management and Sharing Plan is required for all ABTA Research Collaboration Grant, Discovery Grant, and Basic Research Fellowship applications, and is encouraged for all Jack & Fay Netchin Medical Student Summer Fellowship applications. For applicants who include data sharing costs in the proposed grant budget, the data sharing plan must reflect the expenses proposed.

Reviewers will be able to review and comment on the Data Management and Sharing Plan but are asked not consider the merits of the plan when scoring the application.

The completed form should be upload as a PDF into the proposal attachments section of the application in the ABTA grant portal.

Applicant/Principal Investigator: _____

Project Title: _____

Briefly describe the data to be shared. Include species, sample type(s) (tumor tissue, normal tissue, blood, CSF, etc.), number of samples, the type of data that will be shared (whole genome sequencing, RNA sequencing, MR images, etc.), and any metadata that will be shared.

Where will the data be deposited? Please refer to the [ABTA's list of approved repositories](#). If the repository your preferred repository is not found on the list, contact grants@abta.org.

Approximate date when the data will be deposited:

Will there be any restrictions on access to the data or embargo periods? If so, please describe.

Who will be responsible for managing the data prior to and after the data has been deposited?
